Notice to Authors

quality or generated by *high-resolution* computer graphics and should be large enough (10–12 points) to take a reduction of 50–60%. Drawings should be made with black India ink on tracing linen, smooth-surface white paper, or Bristol board. Graph paper if used should be ruled in blue. Grid lines that are to show in the final reproduction should be inked in black. Properly prepared glossy prints are acceptable.

Photographs should be the actual size for reproduction and labeled with letters 2 to 4 mm high. For the best reproduction, provide clear, sharp, glossy prints with adequate contrast. Providing an overlay that indicates the most critical areas of a micrograph will aid in ensuring high-quality reproduction. The best results will be obtained if authors match the contrast and density of all figures appearing on a single plate. Figures that are to appear together as one plate should be mounted on paper. Give magnifications in legends or indicate with a scale marker on photograph.

Color figures. Illustrations in color can be accepted only if the author defrays the cost. The cost is \$750 for the first figure in each article and \$350 for each subsequent figure in the same article.

Tables should be typed double-spaced on separate pages, numbered consecutively with Arabic numerals in order of men-

tion in the text. Each table should have a short explanatory title.

References to the literature should be cited in the text by Arabic numerals in square brackets and listed at the end of the paper in consecutive order. Abbreviations of journal titles should follow the style used in *Chemical Abstracts Service Source Index*, 1985. Please note the style in the following examples:

1. Stoddart, J. H., Lane, M. A., and Niles, R. M. (1989) *Exp. Cell Res.* **184**, 16–27.
2. Bovey, F. A., and Jelinski, L. W. (1983) Chain Structure and Conformation of Macromolecules, p. 150, Academic Press, New York.
3. Britton, G. (1985) in *Methods in Enzymology* (Law, J. H., and Rilling, H. C., Eds.), Vol. 111, pp. 113–149, Academic Press, San Diego.

Proofs will be sent to the author, with a reprint order form. Authors will be charged for alterations in excess of 10% of the cost of composition.

Reprints. Fifty reprints without covers of each article will be provided free of charge. Additional reprints may be purchased.
